PUCCINI

PERSONALIZATION

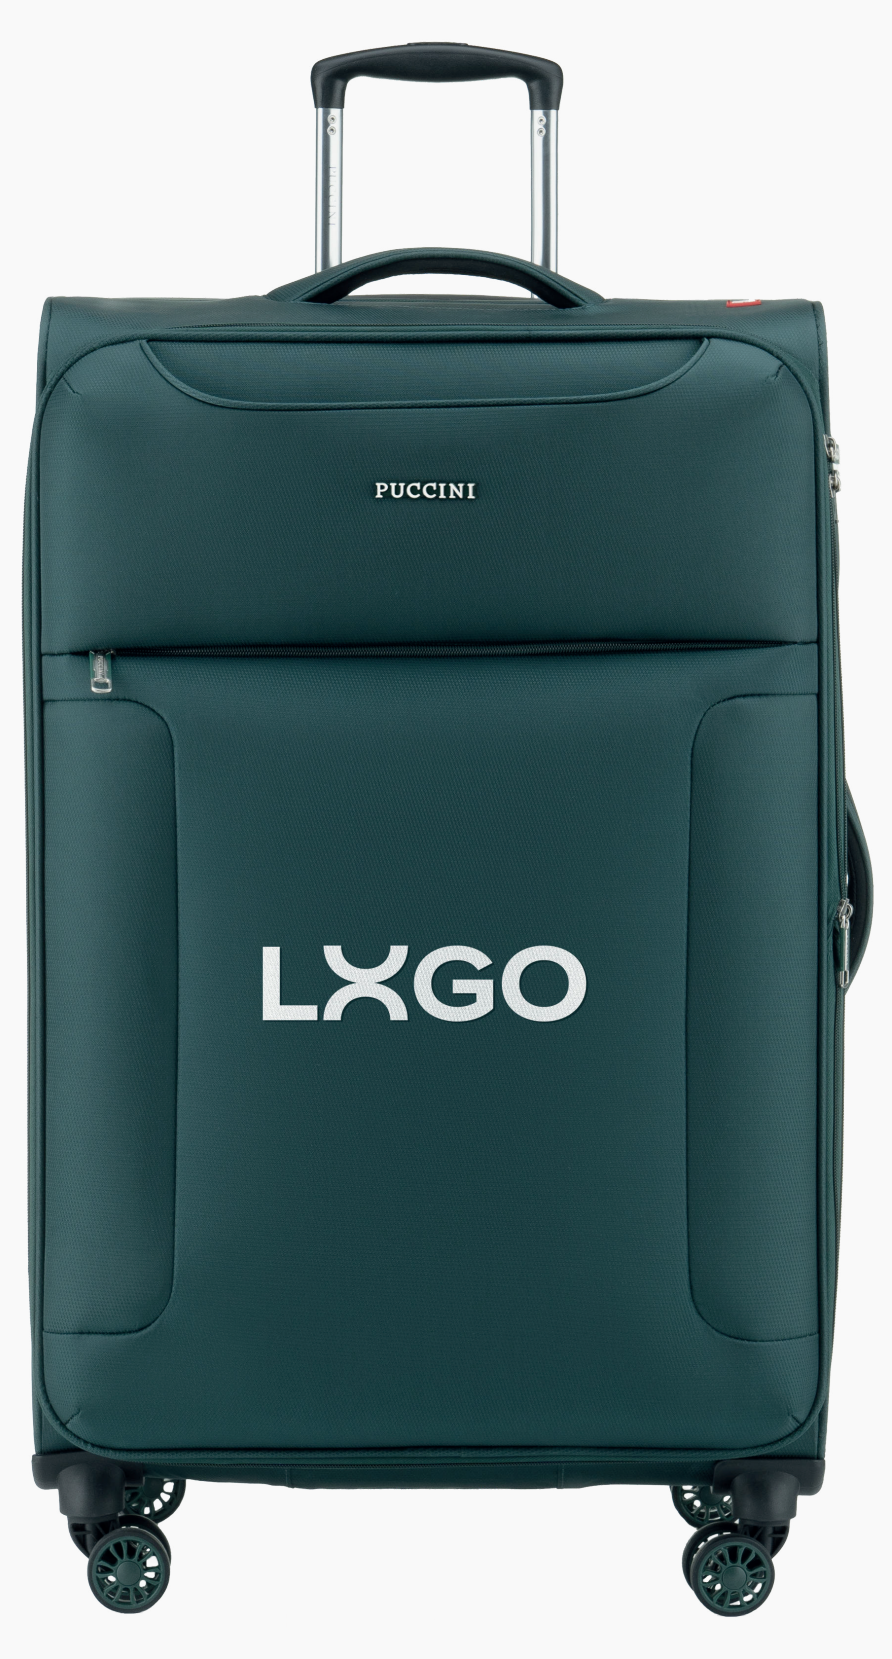
Explore our product logging capabilities.

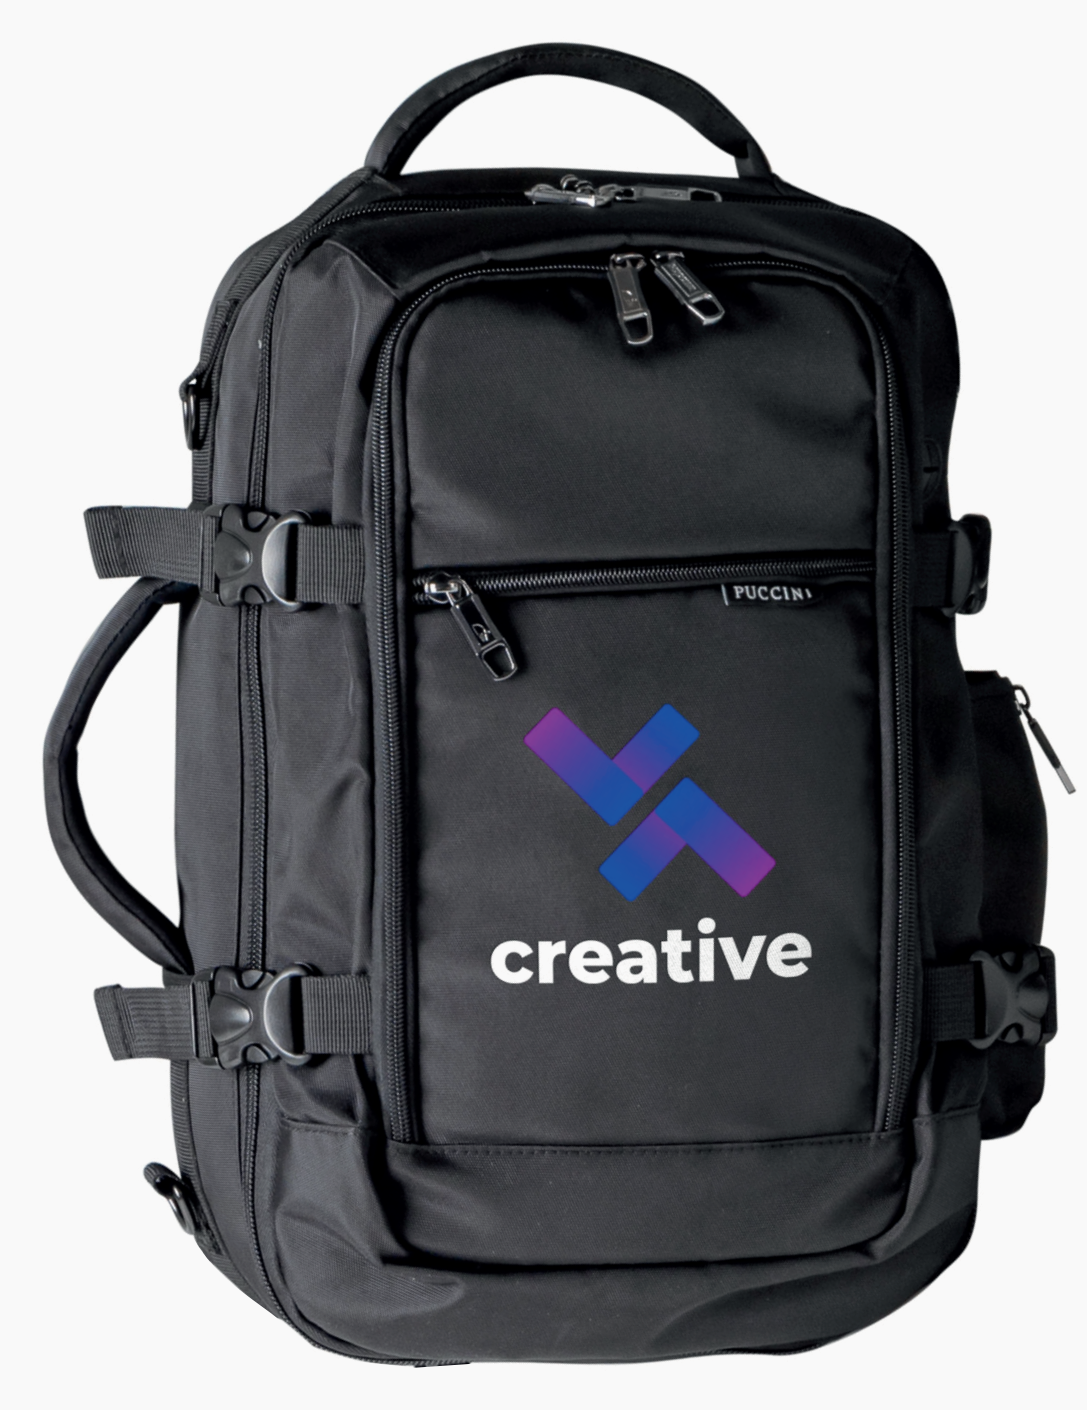
We offer extensive product personalization options and the best available marking solutions that can serve as both a corporate gadget and a unique business gift.

- Before implementation, we visualize the marking based on the provided logos and guidelines.
- Personalized products retain the standard quality guarantee, although they are not returnable or exchangeable.
- Using the company's logo, we take care of every detail to ensure high quality and visual effect.
- Standard lead time is 7-21 working days, depending on the size of the order and the type of personalization.
- For unique solutions, please let us know in the form - together we will develop a unique solution.

THERMAL TRANSFER ON THE OUTSIDE

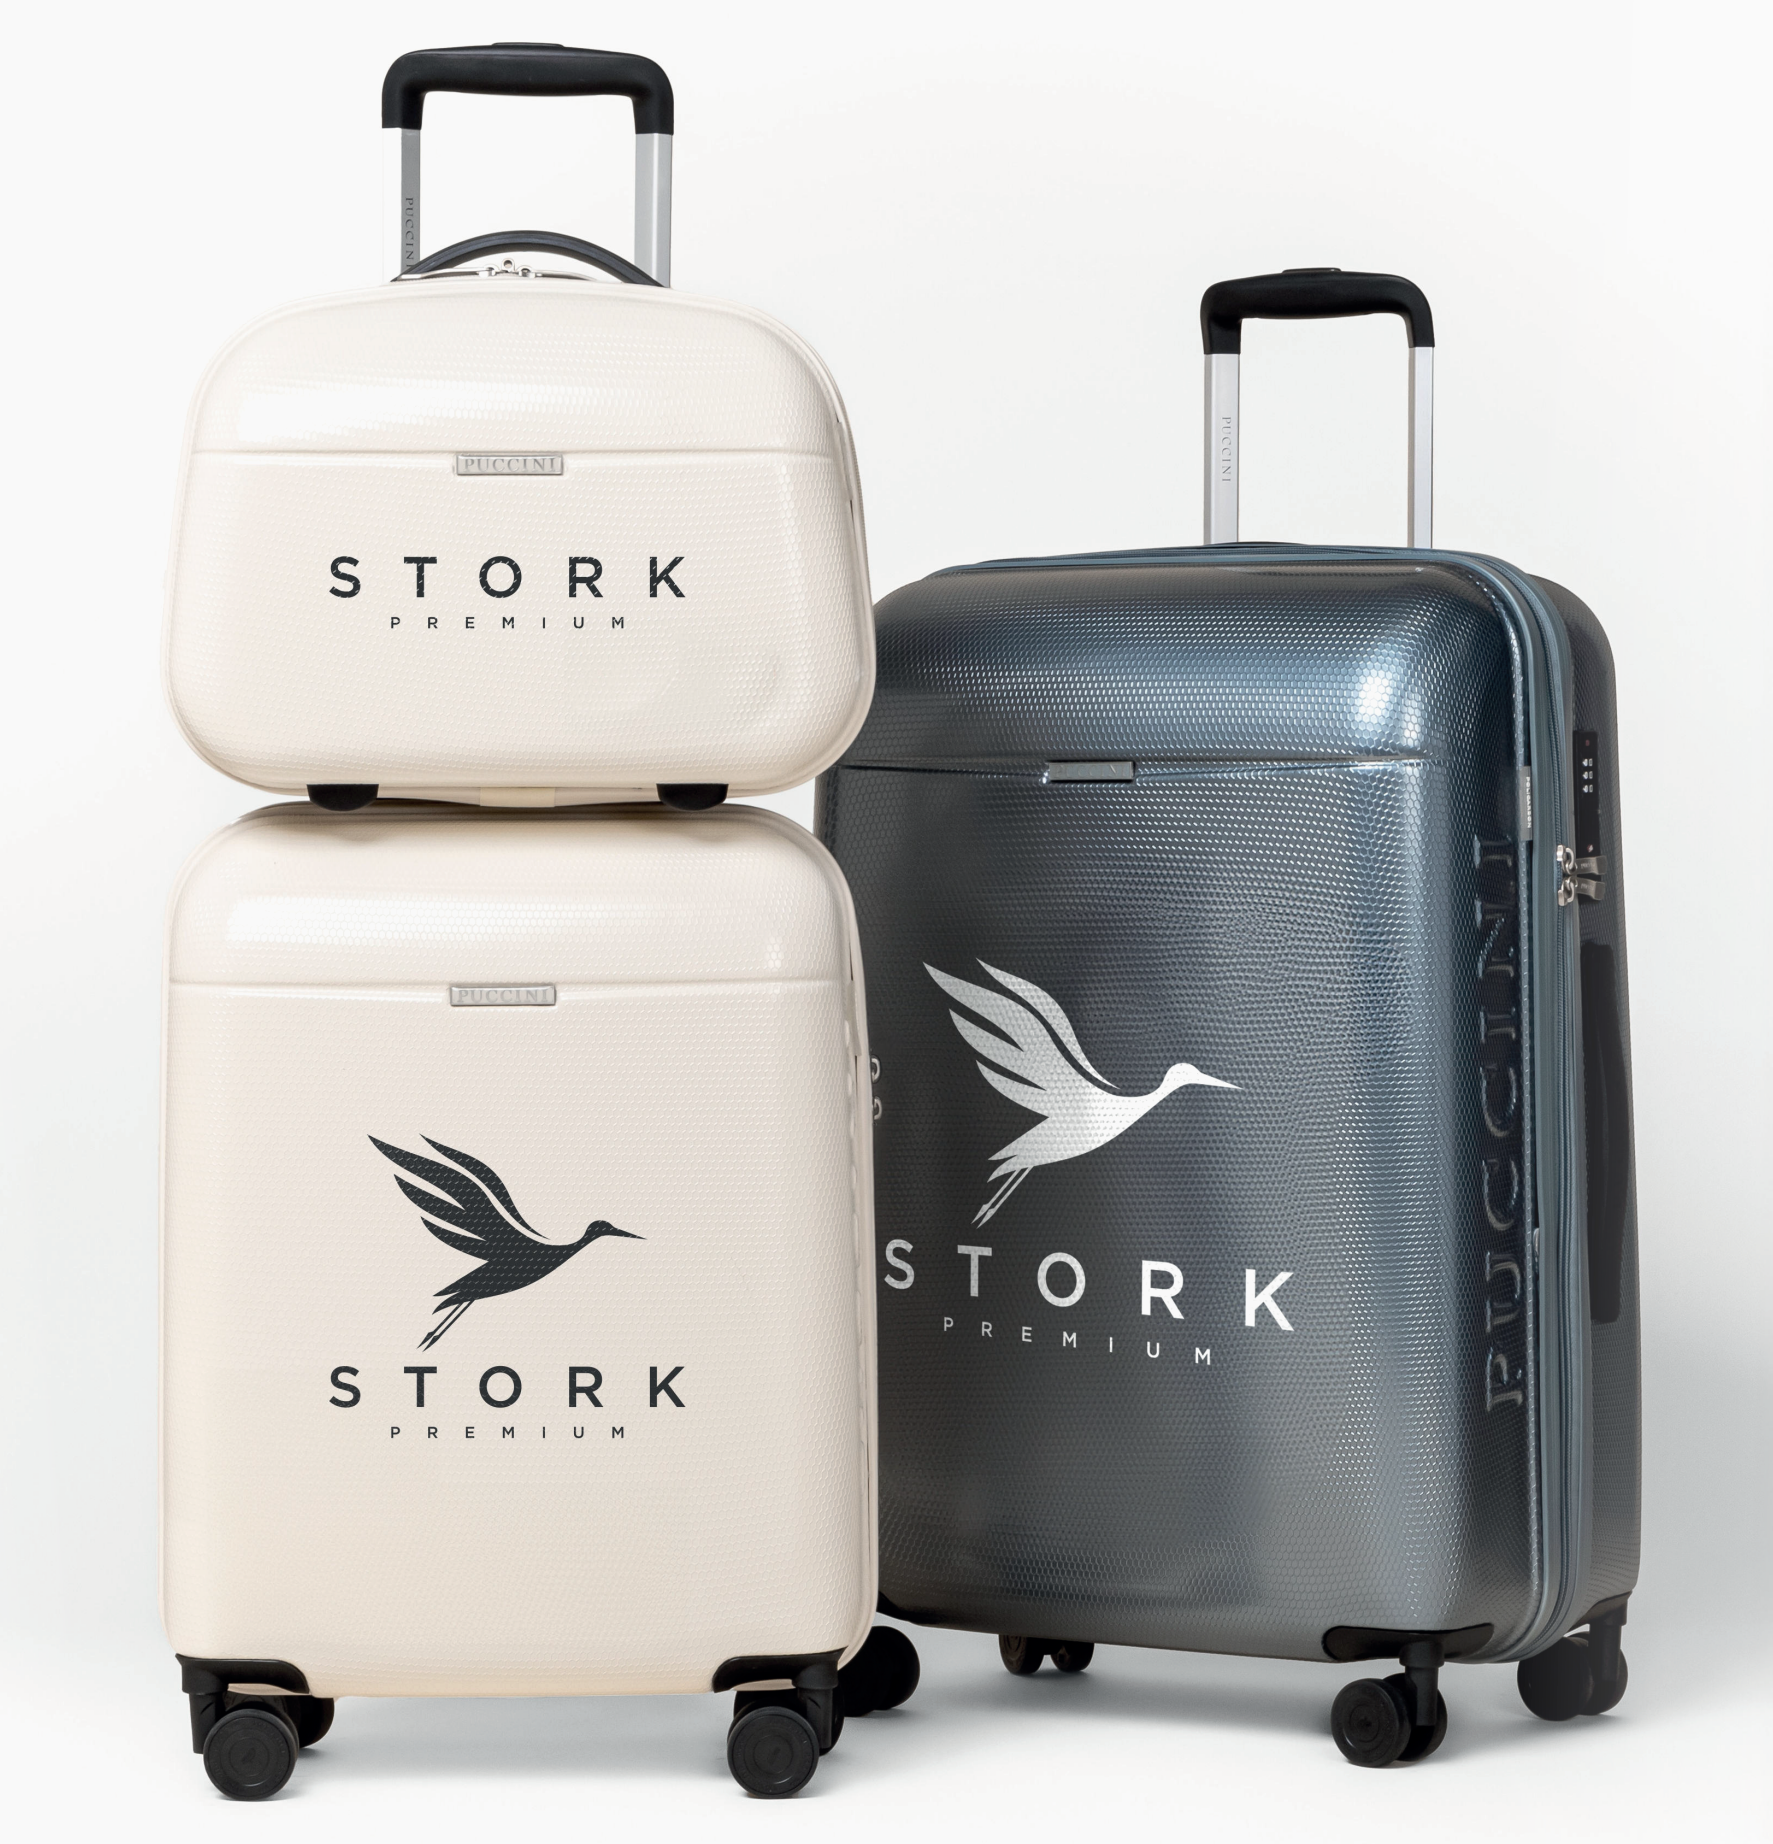
On products made of material, we can perform logo marking on the material.





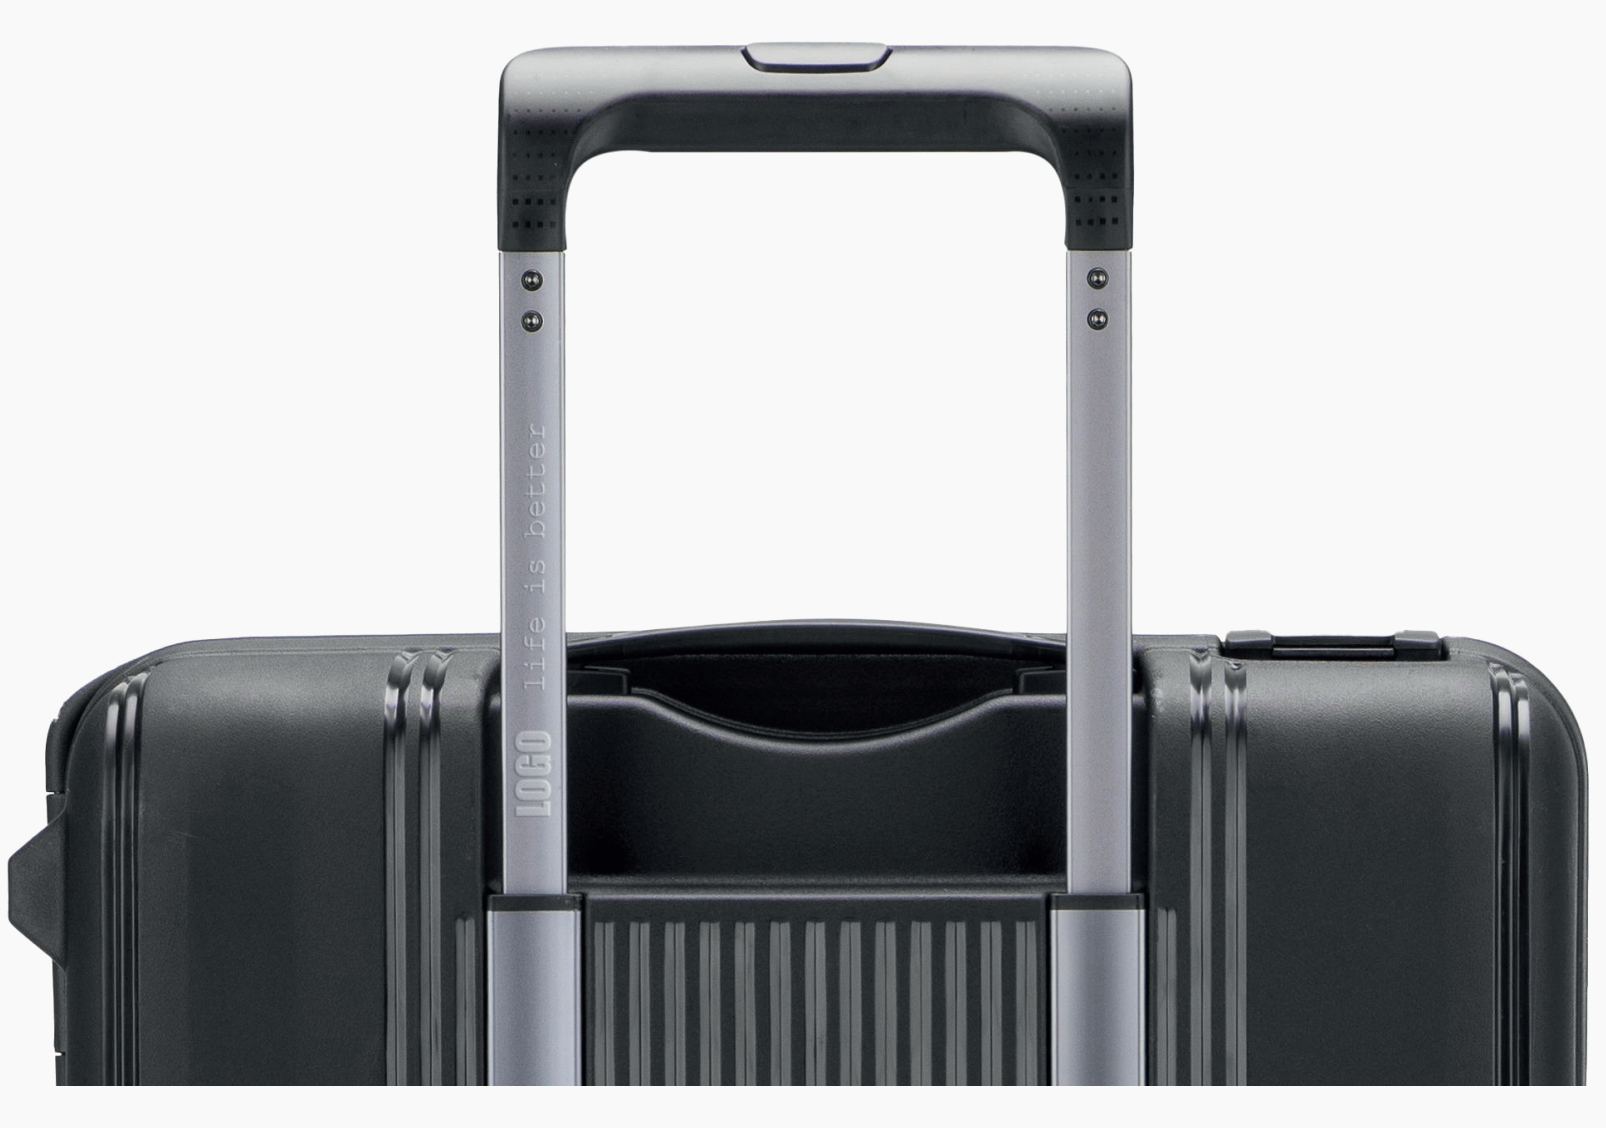
UV PRINTING

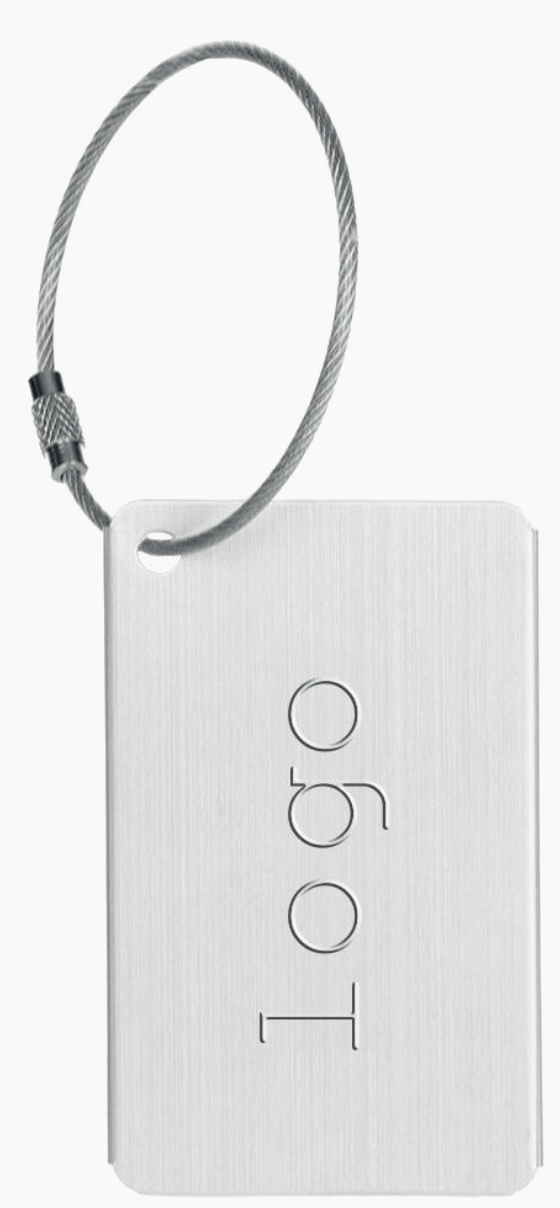
On cases made of hard material, it is possible to make logos in the form of UV printing on the surface.



LASER ENGRAVING

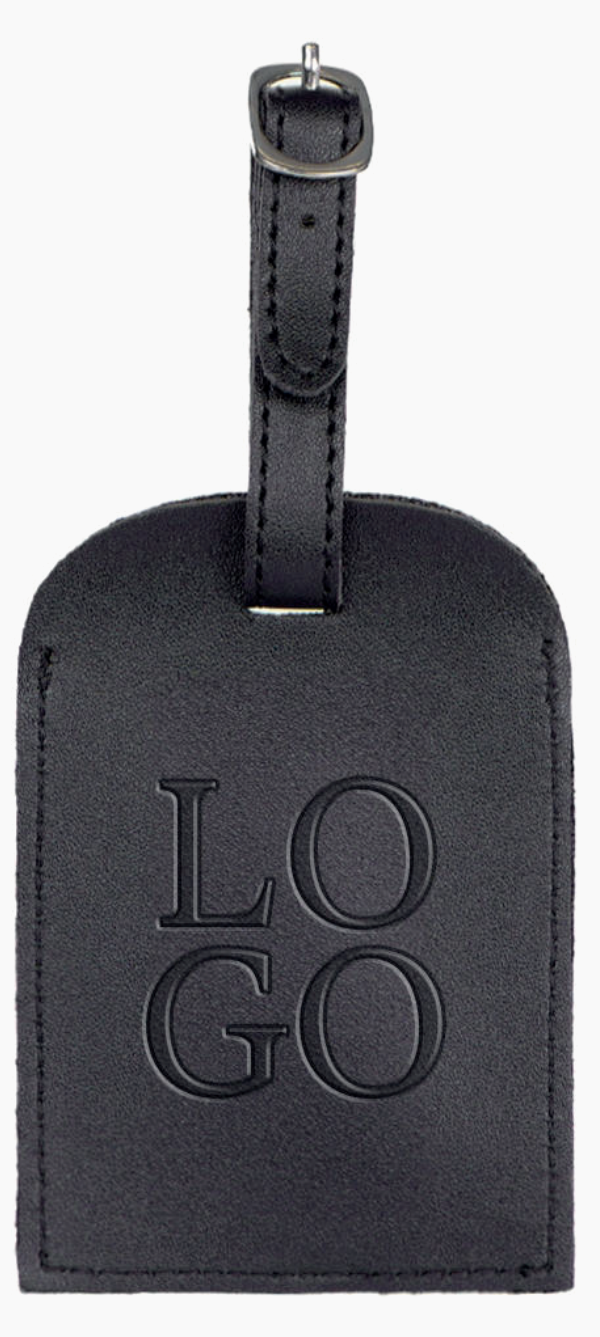
On the frame of any suitcase, we can make an engraving with the customer's logo. In the case of this realization the logo is engraved, then it usually has shades of gray.





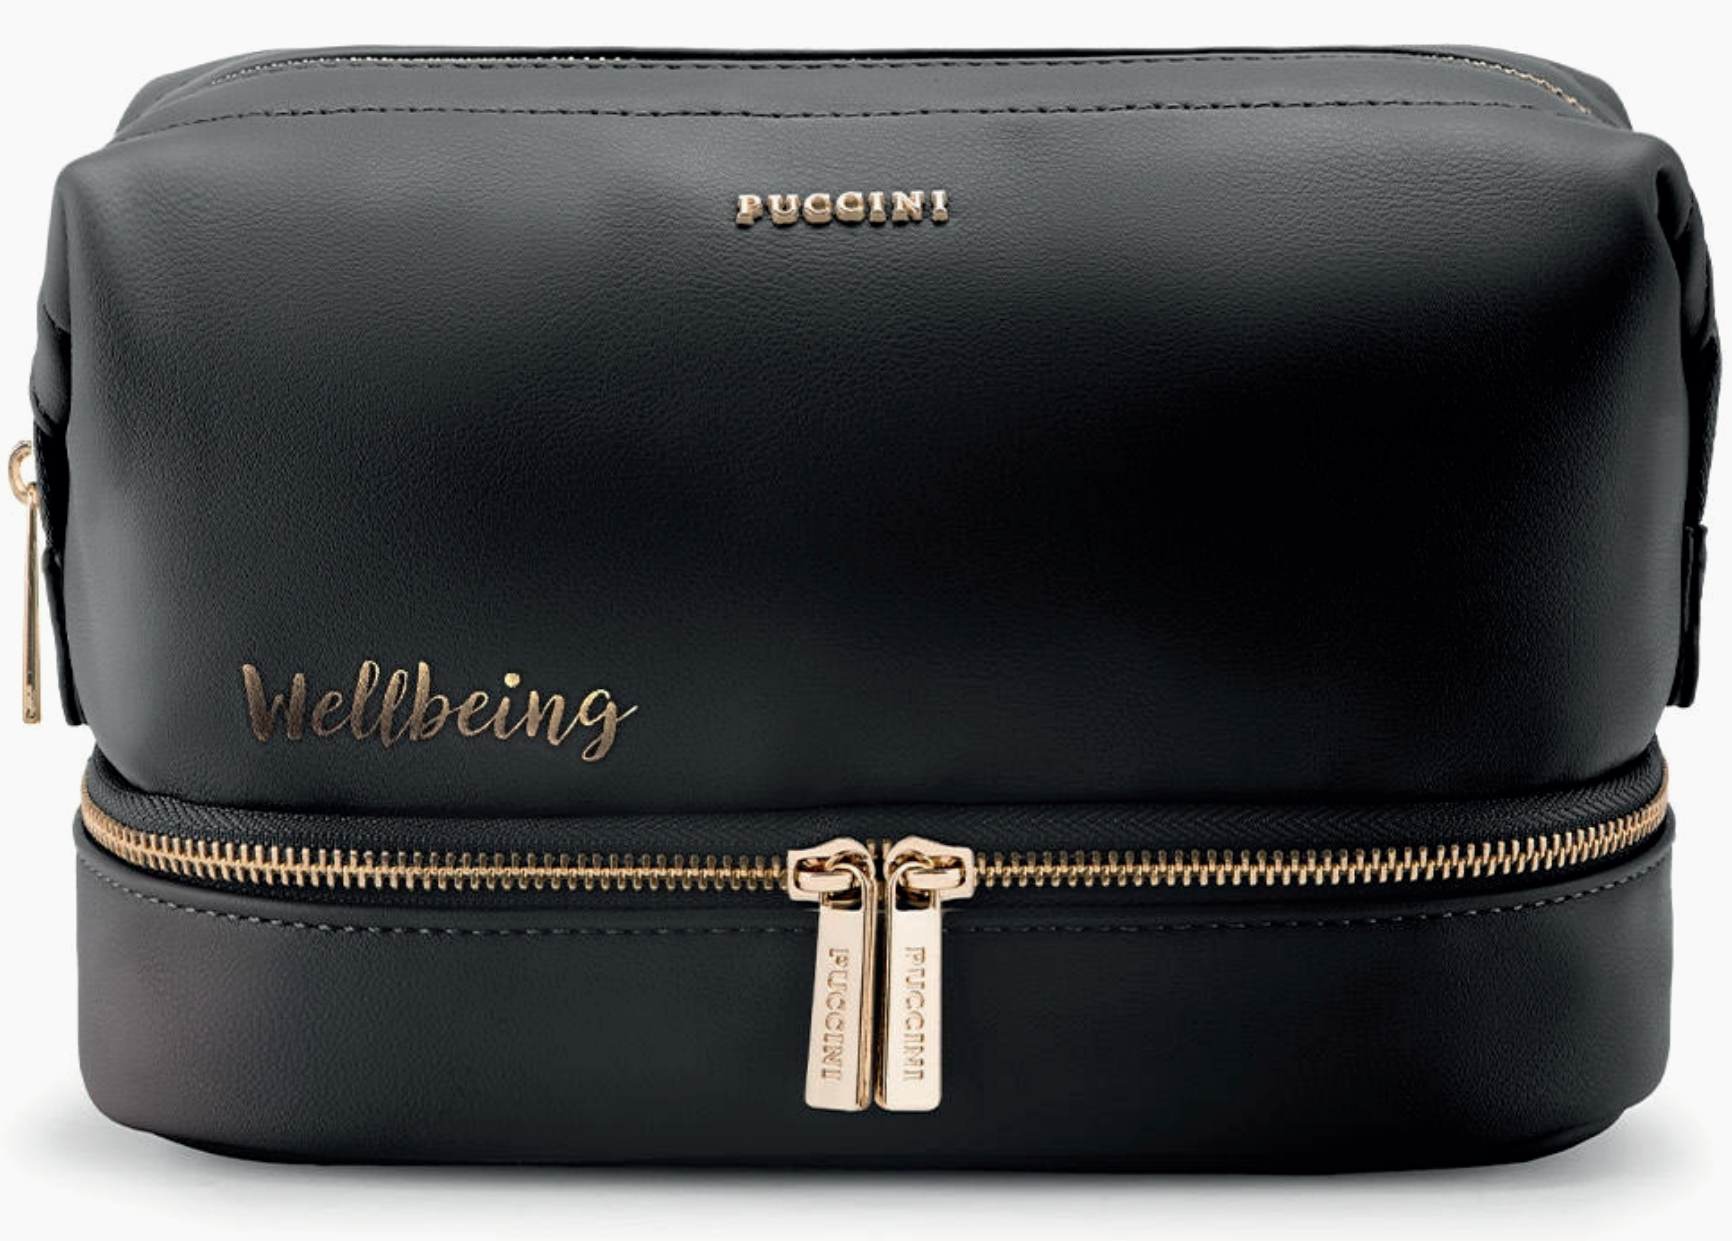
SMALL LEATHER GOODS LOGGING (EMBOSSING)

On leather products and in the case of some eco leather products embossing on leather is possible.



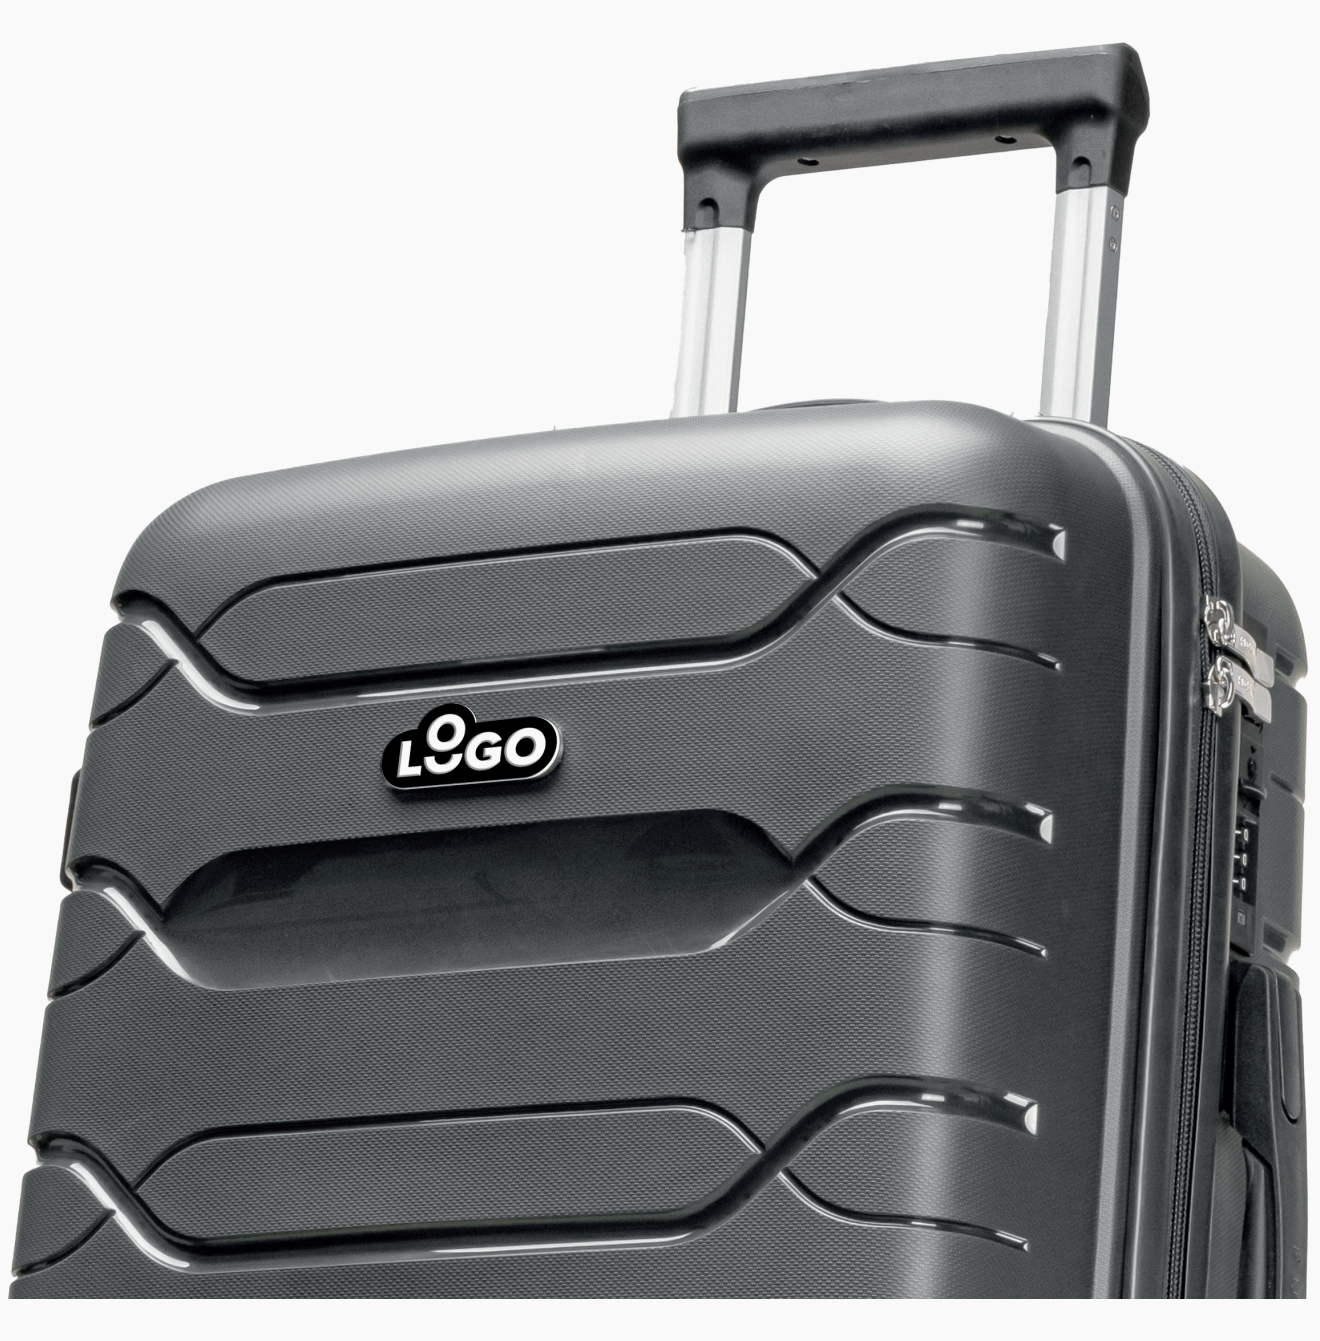
PAD PRINTING

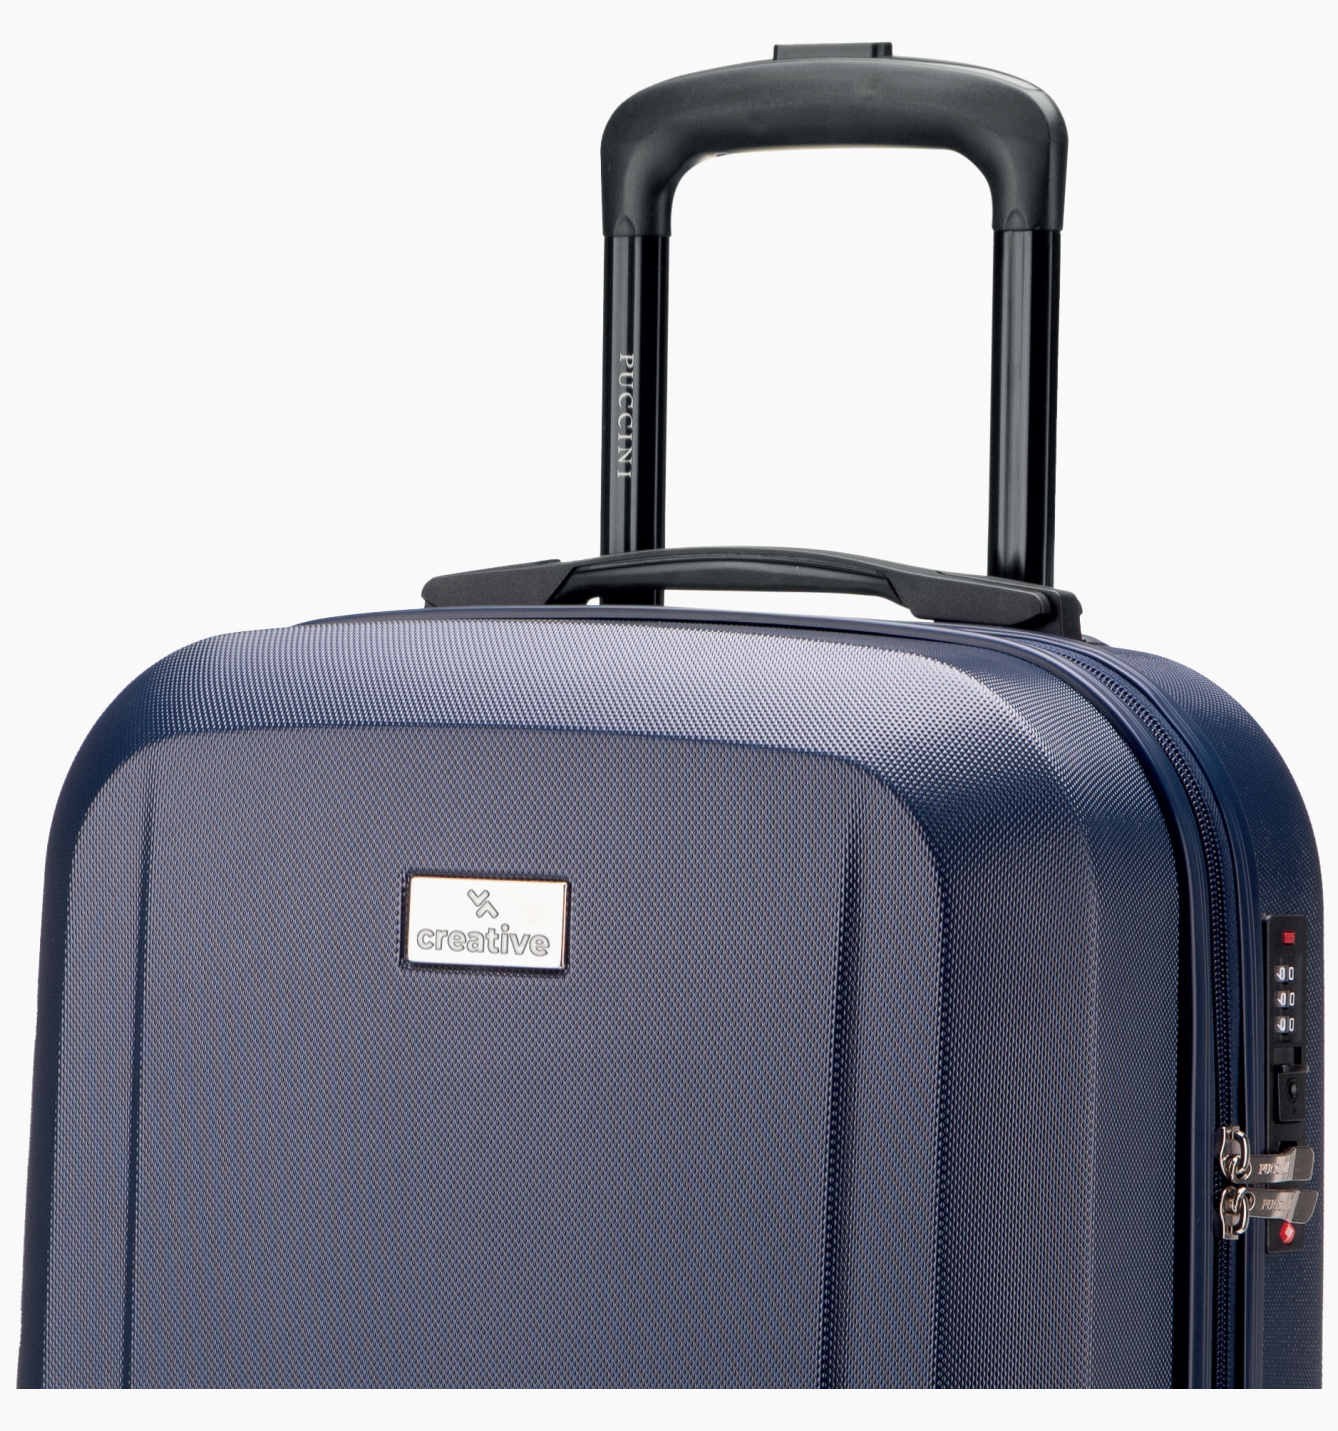
In the case of selected products made of ecological leather, it is possible to make a printing in the form of pad printing.



LOGO STAMP

It is possible to replace our logo stamp on hard material suitcases with a stamp with customer's logo.





CONVEX EPOXY STICKER

On each suitcase we can make marking in the form of a convex sticker, placed on a strong adhesive in a recess in which the frame of the suitcase is hidden.
